

Colleges visit Tampa Prep from August to November. Most visits are scheduled in September and October. Each fall over 100 college representatives make Tampa Prep a stop during their travels. We advertise these meetings to Junior and Senior students here (the website), on the bulletin board opposite of Mr. Shepley's office and outside of the College Counseling offices, as well as through announcements during assembly. Seniors can also access the schedule through their Naviance/Family Connection account.

What's in it for a student to meet with the college representative?

- It is a good way to make contact with a college
- It is a good way to learn about a college the student may not know too much (or anything) about.
- The representatives that visit Tampa Prep want to meet students. They want to talk about the application process, student life, location, the campus, etc. It's okay if students don't have questions at first. They may come up with some questions after they've met with a few different college reps.
